MORSØ FORNO

A BEAUTIFUL INVITING FOCUS FOR SUMMER ENTERTAINING

Welcome to Morsø Forno - and welcome to the special feeling, wonder and freedom of outdoor living. The Morsø Forno cast iron outdoor oven makes you feel entirely at home with the art of outdoor cooking. The flames crackle, as the Forno emanates a decadent warmth and a delicious aroma that only a real wood fire can bring.

Versatile cooking with the Morsø Forno. Now you can experience for yourself how easily delicious food can be produced - from juicy steaks to smoked salmon, homemade crispy pizzas or delicious lamb steaks.

When you have finished cooking, the Morsø Forno can provide warmth, cosiness and the flames create a natural focal point for the long summer evenings.

Oven Weight 96kilos (w x h x d) 75cm x 60cm x 67cm. Material Senotherm UHT Black painted cast iron with a heat and corrosion resistant coating system.

MORSØ FORNO

STONE BASE

The prerequisite for a fantastic, crisp pizza is a pizza stone. Morsø's beautiful and popular Morsø Forno Outdoor Oven is inspired by the classical, Italian stone oven, and the integrated set of stones ensures tasty pizzas etc. for family and friends.

The Morsø Forno stone is made of ceramic tile, based on fibre free cement and pure minerals, and the set consists of 1 central stone, 1 rear stone and 3 stone side panels. The stones withstand particularly high temperatures up to 1250 °C and have similarly been tested down to -20°C.

MORSØ FORNO

GARDEN TABLE

Italian summer is inextricably linked with the outdoor life, community and plenty of good food. And now you can bring the Italian atmosphere to your garden, patio or terrace.

The award-winning Danish designed Klaus Rath has created the Morsø Outdoor table. The Morsø Outdoor table, provides a comfortable working height when you work your magic with the ingredients and slide your creations in and out of the Oven. Made from a powder coated steel, its slim structure works beautifully with the rounded shapes of the outdoor stove.

The large space below the table lets you store firewood, herbs, and whatever else a grill-master and baker might need to have close to hand. The outdoor table can be pushed around using the stainless handle, and has three hooks that can be used to hang tools and dishcloths.

Table Weight 60kilos Dimensions (w x h x d) 120cm x 78cm x 60cm.
Material Black Powder Coated Steel w/ Stainless Steel Handle

MORSØ FORNO TERRA TABLE

Morsø Terra outdoor table for the outdoor kitchen and Forno. With the two tables from Morsø Garden and Terra you have the elements of a flexible outdoor kitchen.

The Terra outdoor table is a square table which readily fits into both an existing outdoor kitchen and on large or small terraces and balconies.

The table is the perfect base for the Morsø Forno, has good space for kindling, and at the same time the elegant and stylish table is suitable for a supplementary serving and preparation table.

Weight 44kilos Dimension (w x h x d) 60cm x 81cm x 60cm. Material Black Powder Coated Galvanised Stainless Steel Sheet with a slightly coarse texture that blends in well with the cast iron surface of the Morsø Forno.

MORSØ FORNO TUSCAN GRILL

The Morsø Tuscan Grill is an enamelled cast iron grill grate, whose diameter of 33cm gives a grilling area of over 800 cm². The Tuscan Grill is used in the Morsø Forno Outdoor Oven or the Kamino Outdoor Fire and enables you to cook meats and vegetables with sharp, well-defined grill markings. It is also where you put fish for grilling or smoking.

Ordinary grill grates of smooth stainless steel have the disadvantage that fat drips off, so the steak isn't roasted, but toasted. Our cast iron grill grate has the advantage that its innumerable small pores absorb fat and flavours from the meat. The enamelled surface of the Tuscan Grill ensures both a long lifetime and easy cleaning. The enamelling is done in a way that preserves the ability of the cast iron to absorb the flavours, making the grate ideal for grilling.

MORSØ FORNO OVEN DOOR

The Forno Oven Door allows you to further expand the uses of your Outdoor Oven converting the Morsø Forno into the perfect smoke oven.

The Door is constructed from stainless steel so it can withstand the heat making slow cooking, baking and smoking possible.

MORSØ FORNO SMOKEKEEPER

Morsø Smokekeeper is a cast iron lid that can be placed over the flue pipe on both the Forno and Grill Forno when using as a smoker.

It stops the smoke and so optimizes the smoking process. Best results will be achieved when using the Smokekeeper together with the Forno or Grill Forno door.

Diameter Top 18cm Flue 7 cm Height 3 cm

MORSØ FORNO ASHSCRAPER

Award-winning, Danish designer Klaus Rath has developed an ash scraper especially for the Morsø Outdoor Oven.

It is not only ideal for clearing up, but also particularly suitable for moving round the embers and knocking the embers into smaller pieces, e.g. if you want to grill good steaks.

And there's more - the built in blower pipe is also a great help when you need to get the fire going.

MORSØ FORNO FIRE TONGS

Some times we need to move the firewood around to get the fire going, or your embers need be arranged to evenly heat the grill.

The award winning designer Klaus Rath has developed these fire tongs especially for the Morsø Forno, with a length that is perfectly sized to easily move the firewood around the stove.

The tongs are also suitable to be used in the Morsø Ignis Firepit. With their stainless steel hanger, the tongs also hook onto your Garden Table for convenient access.

MORSØ FORNO FLUE PIPE EXTENSION

To improve the draught and get better combustion in your Morsø Forno Outdoor Oven under difficult wind and weather conditions, you can buy an exclusive flue in black painted stainless steel to fit to the Forno's chimney.

The improved draught prevents smoke leakage and creates extra heat for your food preparation.

Diameter Ø 124mm x 750mm in length

MORSØ FORNO VETRO PIZZA & FRYING PLATE

Morsø Vetro is made of black ceramic glass – a hot plate suitable for all heat sources but also a beautiful and decorative serving plate for the dinner table – for both hot and cold meals.

Morsø Vetro can take temperatures up to 500°C and is therefore the perfect baking plate for pizza, whether in the forno outdoor pizza oven, on the grill forno, or in a conventional oven.

Also, all kinds of meat, fish, and vegetables can be cooked and sautéed on the glass plate.

MORSØ FORNO ALU PIZZA PEEL

Morsø Forno Outdoor Oven, it is important to have the right tools. Morsø's pizza peel is the right pizza shovel, when you want to move the pizza into and out of the oven in a convincing manner. The Morsø pizza peel is tear-drop-shaped and is made of aluminium with an oak handle and is designed specially for the Morsø Outdoor Oven.

Morsø can help you assemble the perfect pizza kit with Forno pizza oven, pizza peel, and grill

MORSØ FORNO BAMBOO PIZZA PEEL

To make the entirely right pizza in the Morsø The Morsø Bamboo Pizza Peel is made from oiled bamboo from certified plantations.

With its exclusive look, the Morsø Bamboo Pizza Peel is not only ideal as a cooking implement, it also works perfectly as a serving board on the dining table. Pizzas, tasty cheese assortments, homemade bread, you name it, look particularly attractive with the Bamboo Pizza Peel as a decorative base.

Clean with mild soapy water. Applying oil suitable for contact with food to the surface regularly will help prevent it from staining

Length 530 mm - Width 275 mm.

MORSØ FORNO COCOTTE

You're looking at a future classic, which will give you pleasure time and time again. It lasts for ever and the taste gets better and better. Use your griddle cocotte for a juicy roast - with the lid on, moisture is added during roasting, as the lid acts as a "self-basting lid" and the griddle cocotte can also keep the steam from the meat and vegetables in, preserving the vitamins and taste.

Reverse the lid and fry some juicy steaks - enjoy your new, multi-functional pot.

The griddle cocotte can easily be used together with the Morsø Forno outdoor oven or Grill Forno. The double enamelled cast iron can easily withstand rapid heating and high heat, so now all you need is to find yours and the family's favourite recipes

MORSØ FORNO AXE

With a beautiful linseed-oiled handle made from USA Hickory wood which is hard and dense with exceptional flexing strength and a traditionally forged high grade carbon steel blade, the Morsø Axe comes with a genuine leather sheath and sharpening stone.

The Morsø Axe head is forged from C45 high grade carbon steel with a Rockwell hardness of approximately 53-56HRC (According to DIN 7287/B).

MORSØ FORNO GARDEN PACKAGE

Morsø Forno Garden is a grill and pizza oven on a large outdoor table on wheels. This gives you a working area and the ability to move the table around the patio. There is plenty of room for decorative firewood, herbs and the most important utensils, so that they are always at hand.

Morsø Forno Garden is for anyone who values good food, originality and shared experiences. With clean lines and a simple, functional design, the award-winning designer Klaus Rath has created a tailor-made stove for the home – or rather for the home's lovely outdoor space.

Morsø's Forno Garden set includes the Morsø Forno Outdoor Oven, Garden Table, the Tuscan Grill and an Ash Scraper, so you can start grilling, roasting and making delicious food in your Forno oven.

MORSØ FORNO FRYING DISH

Morsø Frying Dish is made of enamelled cast iron with a porous structure that distributes heat and taste like no other material.

The Frying Dish can be used as a hot or cold serving dish, and as a base in the Morsø Forno or Grill Forno.

A steel handle is also available for the Frying Dish which ensures you won't burn your fingers on the cast iron plate. The handle can also be used with the grill platter and grill plate that is available for the Morsø Grill Forno.

MORSØ FORNO TERRA PACKAGE

Bright sunshine, friends, family and fantastic food. Morsø Forno lifts your outdoor food preparation to a higher level and makes it possible to prepare special dishes easily and expertly.

You can enjoy the warmth of the Forno late into the evening, along with an extra glass of wine. Morsø Terra is suitable for the smaller terrace and can stand outdoors the whole year round.

The whole set includes the Morsø Forno Outdoor Oven, Terra Table, the Tuscan Grill and an Ash Scraper.

MORSØ GRILL FORNO II

A BEAUTIFUL MORSØ CAST IRON ALTERNATIVE TO THE BARBEQUE

Enjoying the outdoors in the company of good food and good friends truly is one of life's great pleasures. Morsø understands this and as such has created a range of charming, well designed ovens and grills that sit beautifully in any setting.

The Morsø Grill Forno is made from solid enamelled cast iron that gives unsurpassed advantages when grilling. The cast iron grill is fitted on a base of 3 elegant teak legs that are secured with a ring of stainless steel. 3 hangers are fitted to the ring to allow your cooking accessories and the door to be hung. (Door is an accessory) A coal insert and a grill grate both made from cast iron are included with the Grill Forno. The Grill Forno can be used with charcoal, briquettes or fire wood.

The special surface of the grill grate has innumerable small pores that absorb the fat and flavourings from the meat; a unique feature that ensures meat is grilled in it's own juices - unlike stainless steel grates where the meat is not grilled but roasted. More desirable and more versatile than a gas or charcoal BBQ. (h x d) 110cm x 55cm.

MORSØ GRILL FORNO VETRO PIZZA & FRYING PLATE

You can now cook pizza on the Grill Forno. Whilst the Grill Forno may not be as versatile as its big brother the Forno wood fired oven, we often get asked if it can cook pizzas. Up until now that hasn't been possible. But now with the new accessory the Vetro Pizza Plate you can. Just add both the Grill Forno and the Vetro Pizza Plate to your outdoor space and you will be able to cook pizzas and all sorts of food on your new Grill Forno.

MORSØ GRILL FORNO GRILL COVER

The tailored cover is made of strong watertight material to protect your Grill Forno from weather conditions all year round.

The cover naturally also protects the Grill Forno from dirt, so no cleaning is needed before use. The cover is UV protected, and its strong quality gives the cover a long lifetime. Besides, the cover can be washed, either by hand or in the washing machine at 30 degrees. Do not use fabric softener, as it bleaches the products.

GRILL DOOR

The stove door for the Grill Forno extends the range of the beautiful grill. If you want to prepare smoked food, fit the stove door to the Grill Forno and the Grill Forno becomes the perfect smoke oven.

With the stove door, the Grill Forno becomes a ball grill and has many possible uses – only the imagination sets the limits.

MORSØ KAMINO DECORATING AND WARMING YOUR OUTDOOR SPACE

At Morso we love fire. We love the natural sense of togetherness that always develops around the enticing, dancing flames.

The Morso Kamino is a beautifully crafted, outdoor fire, reminiscent of an upturned champagne flute.

Its elegant art form is shaped from cast iron which will bring warmth and ambience to your outdoor entertainment space.

Kamino Weight 96kilos Dimensions (w x h x d) 34-45cm x 181.5cm x 50cm.

KAMINO COVER

Take good care of your Kamino Outdoor Fireplace when not in use.

The tailored cover is made of strong watertight material to protect your Kamino Outdoor Fireplace from weather conditions all year round.

The cover naturally also protects the Kamino from dirt, so no cleaning is needed before use. The cover is UV protected, and its strong quality gives the cover a long lifetime. Besides, the cover can be washed, either by hand or in the washing machine at 30 degrees. Do not use fabric softener, as it bleaches the products.

MORSØ IGNIS FIREPIT

The Morso Ignis Firepit is the ideal choice for everyone who likes to create good, atmospheric times in the garden. Imagine sitting with a good glass of red wine in your hand and your eyes resting on the living fire. Marshmallows are of course a certain hit with the Ignis. Poke the marshmallows on sticks, bake them golden brown and YUM!

The firepit is designed based on Morso's old series of cooking equipment. With its clean lines and simple, functional design, it also functions as a beautiful decoration on the patio all year round. The Ignis is made of solid enamelled cast iron.

Weight 20kilos Dimensions (w x h x d) 45cm x 32cm x 45cm
Material Enamelled Cast Iron w/stainless steel grate

MORSØ BEL LAMP OUTDOOR BIO-ETHANOL LAMP

Spread comfort on the patio or welcome guests with living fire at the door. The specially developed Morso BEL bio-ethanol lamp gives the flame a soft body and fantastic dancing life.

BEL is named after the Celtic fire god Bel, traditionally celebrated by lighting bonfires on Beltane, signalling the start of summer. With Morso BEL you can also celebrate light and the long summer evenings with elegant design and beautiful contrasts.

The base is made of solid cast iron, burner and lid of brushed stainless steel.
